

IngenuityFest 2012

SEPTEMBER 14 • FRIDAY

A Audience Participation **D** Dance **F** Film **K** Kids **M** Music **O** Opera **P** Performance **T** Talk **V** Video

5:00PM – 12:00AM **A** **Arduino Workshop - Makers Alliance** Warehouse 32

Join the Makers Alliance, Cleveland's original hacker space, for some guerrilla engineering! We will be offering Arduino workshops in embedded electronics throughout the weekend. Make lights blink, alarms sound, sequence MIDI notes, and gain access to badge-secured area with the Makers Alliance at Ingenuity Festival! Seats and material supplies are limited, so sign up for the class sooner than later! See you there! Check the Makers Alliance wiki for the latest information: <http://wiki.makersalliance.org/display/MAB/Ingenuity+Festival>

5:00PM – 12:00AM **A** **Fab Labs at Ingenuity's Make Space** Warehouse 32

Cleveland and the North Coast are hotbeds of digital fabrication. They are home to MIT-inspired "Fab Labs" (fabrication laboratories) where users can make almost anything. At IngenuityFest, the United States Fab Lab Network (USLFN) will sponsor several displays and demonstrations. The biggest will be MC2 STEM's mobile Fab Lab—a 32' NASCAR trailer decorated in Cleveland and equipped with the latest computer hardware and software for cutting, adding, shaping, 3D printing, and electronics. Around it will be a perimeter of tables for small businesses that got their starts in a Fab Lab. Several machines will be in the center ring to make personalized artifacts on the spot under supervision of students and other skilled Fab users. The USLFN space will be staffed throughout IngenuityFest. Come see what's "making." Pick up information about local Labs. Talk with users of all ages. Try making something personal. www.uslfn.org

5:00PM – 12:00AM **A** **Feed Creativity created by the team at Faber-Castell** Warehouse 32

The "Feed Creativity" space invites creative minds of all ages to participate in arts and crafts. This space is dedicated to adult and children's hands-on art and crafts. Children can work with crafts and activities from Creativity for Kids and Faber-Castell's Premium Children's Art Products while adults can work with Design Memory Craft's Mix & Match products at our Craft Bar, or sample Faber-Castell's famous professional fine art line established in 1761 in Germany. Visit the space to feed your creativity with inspiration from Cleveland landmarks such as the Westside Market and Burke Lake Front Airport. Be sure to note the scheduled, timed events so you can experience various make-it-take-it activities. Faber-Castell is a global company with offices around the world, with US headquarters located in Cleveland, Ohio. We are world renown for creative products and dedicated to bringing you creative products based on our founding principles of: Best of Class Quality, Innovation and social responsibility. Learn more at www.FaberCastell.com and we look forward to seeing you at Feed Creativity.

5:00PM – 12:00AM **A** **Ingenuity's Make Space** Warehouse 32

Learn, create, and be inspired by this assembly of creative Makers. Watch a robot create art or fashion some of your own. Learn about everything from 3D printers to laser cutters to soldering irons. Just what is a Maker? Come and be surprised. You may already be one.

5:00PM – 6:00PM **M** **Composers Showcase** Warehouse 32 Stage

A series of world premiere compositions created for IngenuityFest's 2012 theme. Featuring work by
Eric Gonzalez
Corey Miller
Alex Schrock
Patrick Stoops

Kristopher Magnuson

Program created by Timothy Beyer

5:00PM – 5:45PM **M Jes Maybe** Indoor Stage
Artists: Jes Maybe
Mid-fi, Tape Dream Synth Pop

5:00PM – 5:45PM **M Polina Kourakina** Outdoor Stage
Artists: Polina Kourakina
Acoustic/Jazz/Alternative

5:00PM – 6:00PM **P Go Roadshow** Squonk Go Roadshow Stage
Artists: Squonk Opera
GO Roadshow is “a musical street spectacle on wheels”. This show-making machine is a 34-foot long monster truck retrofitted with truck-horn calliope, a wall made of rotors and a spinning grand piano that is played while it wheels around! Each show starts with a shameless parade of peacock trumpets, spinning drums, accordion, sousaphone, and glockenspiel.
GO is a music and art-mobile – a rolling ruckus that opens up like a mechanical blossom to make the street a vibrant place where people can share a community of the imagination. Night shows include video projected on a rotor screen made of movement itself, and on a blimp that has a mouth that opens in a call to celebration. In GO, Squonk draws from the great American history of traveling circuses, Shriner and holiday parades, medicine shows, and used car lot events that vitalized the heartland of this country.

5:30PM – 6:00PM **M JCSS** The Wandering Cave
Artists: JCSS

6:00PM – 7:00PM **D Takes** Warehouse 32
Artists: Nichole Canuso Dance Company
A genre bending exploration of dance installation and cinema conceived by choreographer Nichole Canuso and multi-media director Lars Jan. A sensual melding of live bodies and film, TAKES manifests, refracts and spatially unfolds the forgotten moments of a relationship in real time through a panoramic marriage of live choreography and film. Canuso performs alongside Beau Hancock in this panoramic adventure for the senses.
Separate from the performances, the audience is free to wander and shift perspective during the performance as well as during gallery hours. They are invited into the gallery to explore the performance space and interact with the exhibit, creating their own dance within the installation. At scheduled performance times, the two performers enter and the live event unfolds.

6:00PM – 7:00PM **M Fragments** The Wandering Cave
Artists: Fragments

6:00PM – 7:00PM **M Matuto** Indoor Stage
Artists: Matuto
World

6:00PM – 6:30PM **M Uno Lady** Outdoor Stage
Artists: Uno Lady
A'cappella/Indie/Experimental

6:45PM – 7:15PM **M Freeze-Tag** Outdoor Stage

Artists: Freeze-Tag

Electronic

7:00PM – 7:30PM **M Horak** The Wandering Cave

Artists: Horak

7:00PM – 8:00PM **T Local Food Ignite Talks** Warehouse 32 Stage

Speakers: Local Food Ignite Talks

Organized by the City of Cleveland Office of Sustainability, 10 local food champions will speak about their ideas and personal or professional passions, accompanied by 20 slides. Each slide will be displayed for 15 seconds, and slides will automatically advance. Feed your mind with 10 presenters in under an hour!

Mansfield Frazier, Chateau Hough

Sudhir Raghupathy, Eco Tuesday

Ifeoma Ezepeue, Cleveland Crops

Carlton Jackson, Tunnel Vision Hoops

Brittany Barski, Cuyahoga Metropolitan Housing Authority Green Team

Paula Hershman, Storehouse Tea

Christa Ebert, Neighborhood Progress Inc and co-founder of the 1st annual Citywide Potluck

Gwen Forte, Growhio

Jenny Kelly, Kelly Green Web

Diane Morgan, Maggie's Farm

7:15PM – 8:00PM **M Blue Ribbon Bluegrass Band** Indoor Stage

Artists: Blue Ribbon Bluegrass Band

Bluegrass

7:30PM – 8:30PM **M Dark Matter White Fire** The Wandering Cave

Artists: Dark Matter White Fire

7:30PM – 8:00PM **M Rhyme x Reason** Outdoor Stage

Artists: Rhyme x Reason

Alternative/Hip-Hop/Soul

8:00PM – 9:00PM **P Puterbaugh Sisters opening for Beth Stelling** Comedy Stage

This hour of comedy features some incredibly unique comedians. The Puterbaugh Sisters (Tiffany @puterbaughs & Danielle @dputerbaugh) can't properly be described, but alt-vaudeville-sex kittens is close. Beth Stelling @bethstelling is one of the best human beings in comedy and recently made her TV debut on CONAN! They hosted a variety show (Entertaining Julia) together in Chicago for 6 years that's basically a weekly ingenuity fest unto itself.

The Chucklefck showcases this year will be co-hosted by Chicago's Will Miles @mrwillmiles + Cleveland's Ramon Rivas II @RamonRivasII. The top 16 of the 44 submissions received for this years festival will be performing for a chance to be invited to the Best of Fest wrap show Sunday 9/16 at @Hilarities at 7p with special guests the Sklar Brothers!

8:00PM – 9:00PM **T Panel of Locavore Chefs** Warehouse 32 Stage

Speakers: Karen Small, Ben Bebenroth, Douglas Katz

Learn about the motivation of Cleveland chefs to source food locally and have an opportunity to ask questions.

Karen Small, Flying Fig

Ben Bebenroth, Spice

Douglas Katz, Fire

8:15PM – 9:00PM	M The Womack Family Band <i>Artists: The Womack Family Band</i> American Songs	Outdoor Stage
8:30PM – 9:15PM	M 1,2,3 <i>Artists: 1,2,3</i> Rock and Roll	Indoor Stage
8:30PM – 9:00PM	M Spirits <i>Artists: Spirits</i>	The Wandering Cave
9:00PM – 10:00PM	D Takes <i>Artists: Nichole Canuso Dance Company</i> A genre bending exploration of dance installation and cinema conceived by choreographer Nichole Canuso and multi-media director Lars Jan. A sensual melding of live bodies and film, TAKES manifests, refracts and spatially unfolds the forgotten moments of a relationship in real time through a panoramic marriage of live choreography and film. Canuso performs alongside Beau Hancock in this panoramic adventure for the senses. Separate from the performances, the audience is free to wander and shift perspective during the performance as well as during gallery hours. They are invited into the gallery to explore the performance space and interact with the exhibit, creating their own dance within the installation. At scheduled performance times, the two performers enter and the live event unfolds.	Warehouse 32
9:00PM – 10:00PM	M The Corrigible Trio <i>Artists: The Corrigible Trio</i>	The Wandering Cave
9:00PM – 11:00PM	P Chucklefck Showcase David Drake @thedaviddrake, Mike Ivy @mikeivystandup, Danny Kallas @dannykallas Brian Kenny @briankenny69 Tyler Jackson @tjaxkson, Drew Michael @drewmcomedy, Erik Cribley @erikcribley, Jeff Arcuri @jeffreycarcuri	Comedy Stage
9:15PM – 10:00PM	M Revolution Brass Band <i>Artists: Revolution Brass Band</i> Funk/Soul/Jazz	Outdoor Stage
9:45PM – 10:30PM	M R. Ring <i>Artists: R. Ring</i> Folk Rock	Indoor Stage
10:00PM – 11:00PM	F The Drowning <i>Artists: Kasumi</i> From the producers of Shockwaves, the breakthrough feature film premiering Spring 2013... "The Drowning," the award-winning 3 screen experimental film, explores the impressions running through a man's mind in the moments before his death: the sensation of time slowing down, of heightened bodily perceptions, and the simultaneous unreeling of an internal cinema of images that create an unconscious narrative of personal history and emotion. Director: Kasumi	Warehouse 32 Stage

10:00PM – 10:30PM	M Plague Mother	The Wandering Cave
	<i>Artists: Plague Mother</i>	
10:00PM – 11:00PM	P Go Roadshow	Squonk Go Roadshow Stage
	<i>Artists: Squonk Opera</i>	
	GO Roadshow is “a musical street spectacle on wheels”. This show-making machine is a 34-foot long monster truck retrofitted with truck-horn calliope, a wall made of rotors and a spinning grand piano that is played while it wheels around! Each show starts with a shameless parade of peacock trumpets, spinning drums, accordion, sousaphone, and glockenspiel.	
	GO is a music and art-mobile – a rolling ruckus that opens up like a mechanical blossom to make the street a vibrant place where people can share a community of the imagination. Night shows include video projected on a rotor screen made of movement itself, and on a blimp that has a mouth that opens in a call to celebration. In GO, Squonk draws from the great American history of traveling circuses, Shriner and holiday parades, medicine shows, and used car lot events that vitalized the heartland of this country.	
10:15PM – 11:00PM	M Attack Cat	Outdoor Stage
	<i>Artists: Attack Cat</i>	
	Pop/Rock	
10:30PM – 11:00PM	M Skin Graft	The Wandering Cave
	<i>Artists: Skin Graft</i>	
10:45PM – 11:15PM	M Smoke Screen	Indoor Stage
	<i>Artists: Smoke Screen</i>	
	Hip-Hop/Alternative	
11:00PM – 12:00PM	A The Workout Tape	Warehouse 32 Stage
	Contemporary video screenings tend to involve passive consumption of sounds and visuals composed by artists. "The Workout Tape" requires the audience to get out of their seats and actively respond to the content they see on screen.	
	Collaborators on this 25 minute mind & body exercise include: EverythingIsTerrible, Ben Russell, E Aaron Ross, Jesse Avina, Alyssa Lee Wilmot, George Alley, Stephanie Burke, Jeriah Hildwine, The Happy Collaborationists, Steven Frost, Theodore Darst, James Green, Aaron Orsini, Adam Rux, Mark Sansone, Alfredo Salazar-Caro, Chris Smith, & Dechon Jones.	
11:00PM – 12:00AM	M DJ saint.	Squonk Go Roadshow Stage
	<i>Artists: DJ saint.</i>	
	Electronic/DJ	
11:00PM – 12:00AM	M Scenic Railroads	The Wandering Cave
	<i>Artists: Scenic Railroads</i>	
11:00PM – 12:00AM	P Lee Honeycutt opens for Last Call Cleveland	Comedy Stage
	Lee Honeycutt is a true comics comic. He'll be opening for Cleveland super heroes and dynamic sketch force Last Call Cleveland. Don't miss what's sure to be a 'wigspllosion'	
11:15PM – 12:00AM	M Debussi	Outdoor Stage
	<i>Artists: Debussi</i>	
	Rock/Indie/Alternative/Blues	

11:45PM – 1:00AM **M Two Fresh** Indoor Stage
Artists: Two Fresh
Hip-Hop/Electronic

11:59PM – 1:00AM **A The Workout Tape** Warehouse 32 Stage
Contemporary video screenings tend to involve passive consumption of sounds and visuals composed by artists. "The Workout Tape" requires the audience to get out of their seats and actively respond to the content they see on screen.

Collaborators on this 25 minute mind & body exercise include: EverythingIsTerrible, Ben Russell, E Aaron Ross, Jesse Avina, Alyssa Lee Wilmot, George Alley, Stephanie Burke, Jeriah Hildwine, The Happy Collaborationists, Steven Frost, Theodore Darst, James Green, Aaron Orsini, Adam Rux, Mark Sansone, Alfredo Salazar-Caro, Chris Smith, & Dechon Jones.

12:00AM – 1:00AM **M Griefhound** The Wandering Cave
Artists: Griefhound

12:00AM – 1:00AM **M Party Lips and Justin Hartman** Squonk Go Roadshow Stage
Artists: Party Lips and Justin Hartman
Electronic/DJ

12:00AM – 1:00AM **P Unrated Redux** Comedy Stage
Performers will be invited to come back up and deliver a no holds bar unrated set

12:15AM – 1:00AM **M Megachurch** Outdoor Stage
Artists: Megachurch
Rock/Instrumental/Metal

SEPTEMBER 15 • SATURDAY

12:00PM – 1:00PM **A SANTANA SCHOOL of DANCE presents CITYBREAKS** Indoor Stage
Artists: SANTANA SCHOOL of DANCE presents CITYBREAKS

12:00PM – 12:00AM **A Arduino Workshop - Makers Alliance** Warehouse 32
Join the Makers Alliance, Cleveland's original hacker space, for some guerrilla engineering! We will be offering Arduino workshops in embedded electronics throughout the weekend. Make lights blink, alarms sound, sequence MIDI notes, and gain access to badge-secured area with the Makers Alliance at Ingenuity Festival! Seats and material supplies are limited, so sign up for the class sooner than later! See you there! 12:00PM – 12:00AM **A Feed Creativity created by the team at Faber-Castell** Warehouse 32

The "Feed Creativity" space invites creative minds of all ages to participate in arts and crafts. This space is dedicated to adult and children's hands-on art and crafts. Children can work with crafts and activities from Creativity for Kids and Faber-Castell's Premium Children's Art Products while adults can work with Design Memory Craft's Mix & Match products at our Craft Bar, or sample Faber-Castell's famous professional fine art line established in 1761 in Germany. Visit the space to feed your creativity with inspiration from Cleveland landmarks such as the Westside Market and Burke Lake Front Airport.

Be sure to note the scheduled, timed events so you can experience various make-it-take-it activities.

Faber-Castell is a global company with offices around the world, with US headquarters located in Cleveland, Ohio.

We are world renown for creative products and dedicated to bringing you creative products based on our founding principles of: Best of Class Quality, Innovation and social responsibility.

Learn more at www.FaberCastell.com and we look forward to seeing you at Feed Creativity.

12:00PM – 12:00AM **A Ingenuity's Make Space** Warehouse 32

Learn, create, and be inspired by this assembly of creative Makers. Watch a robot create art or fashion some of your own. Learn about everything from 3D printers to laser cutters to soldering irons. Just what is a Maker?

Come and be surprised. You may already be one.

12:00PM – 1:00PM **A OM Sync Yoga** Warehouse 32 Stage

Artists: OmSync Yoga

Experience the bliss of syncing your breath and movement to live music. Get transported to an infinite time and place. As the tempo of the class picks up, so will the music... eventually the soundscapes you hear will wind down all the way to savasana. Experience OmSync.

12:00PM – 12:45AM **M Josh Ottum** Outdoor Stage

Artists: Josh Ottum

Pop/Electronic

12:30PM – 1:00PM **M All Herons** The Wandering Cave

Artists: All Herons

1:00PM – 2:00PM **F First Orbit** Warehouse 32 Stage

April 12th 1961 – Yuri Gagarin is about to see what no other person has seen in the history of humanity – the Earth from space. In the next 108 minutes he'll see more than most people do in a lifetime. What sights awaited the first cosmonaut silently gliding over the world below? What was it like to view the oceans and continents sailing by from such a height?

In a unique collaboration with the European Space Agency, and the Expedition 26/ 27 crew of the International Space Station, we have created a new film of what Gagarin first witnessed fifty years ago.

By matching the orbital path of the Space Station, as closely as possible, to that of Gagarin's Vostok 1 spaceship and filming the same vistas of the Earth through the new giant cupola window, astronaut Paolo Nespoli, and documentary film maker Christopher Riley, have captured a new digital high definition view of the Earth below, half a century after Gagarin first witnessed it.

1:00PM – 1:30PM **M Gossip Culture** Indoor Stage

Artists: Gossip Culture

Electro-Pop/Disco

1:00PM – 1:45PM	M Hal Walker <i>Artists: Hal Walker</i> Singer/Songwriter/Multi-Instrumentalist	Outdoor Stage
1:00PM – 2:00PM	M Jason Rodriguez <i>Artists: Jason Rodriguez</i>	The Wandering Cave
1:45PM – 2:30PM	M Me <i>Artists: Me</i> Rock and Roll	Indoor Stage
2:00PM – 3:00PM	M 9 Volt Haunted House <i>Artists: 9 Volt Haunted House</i>	The Wandering Cave
2:00PM – 2:45PM	M Guy Perneti <i>Artists: Guy Perneti</i> Acoustic/Blues/Classical	Outdoor Stage
2:00PM – 3:00PM	T The Wright Brothers and the Invention of the Airplane <i>Speakers: Tom Benson</i> Mr. Wilbur Wright of Dayton, Ohio, will present results from experiments concerning the development of a practical, piloted, flying machine. The experiments were conducted between 1899 and 1905, at Kitty Hawk, North Carolina and Dayton, Ohio with his brother, Orville Wright. Wilbur Wright will be presented by Tom Benson who is an aeronautical engineer in the Turbomachinery and Propulsion Systems Division at the NASA Glenn Research Center. Benson currently works on several educational outreach activities at the center, including the development of the agency's <i>Beginner's Guide to Aeronautics</i> and <i>Re-Living the Wright Way</i> web sites for the Educational Programs Office (EPO).	Warehouse 32 Stage
2:45PM – 3:30PM	M Reed City <i>Artists: Reed City</i> Instrumental	Indoor Stage
3:00PM – 3:30PM	M Johnny La Rock <i>Artists: Johnny La Rock</i> Electronic	Outdoor Stage
3:00PM – 3:45PM	M Ilsa <i>Artists: Ilsa</i>	The Wandering Cave
3:00PM – 4:00PM	P Go Roadshow <i>Artists: Squonk Opera</i> GO Roadshow is "a musical street spectacle on wheels". This show-making machine is a 34-foot long monster truck retrofitted with truck-horn calliope, a wall made of rotors and a spinning grand piano that is played while it wheels around! Each show starts with a shameless parade of peacock trumpets, spinning drums, accordion, sousaphone, and glockenspiel. GO is a music and art-mobile – a rolling ruckus that opens up like a mechanical blossom to make the street a vibrant place where people can share a community of the imagination. Night shows include video projected on a rotor screen made of movement itself, and on a blimp that has a mouth that opens in a call to celebration. In GO, Squonk draws from the great American history of traveling circuses, Shriner and holiday parades, medicine shows, and used car lot events that vitalized the heartland of this country.	Squonk Go Roadshow Stage

3:00PM – 4:00PM	T On Katherine Wright	Warehouse 32 Stage
	<i>Speakers: Michelle Epps</i> Katharine Wright, affectionately known as “Sterchens” (short for the German word Schwesterchen meaning little sister) to her famous brothers Orville and Wilbur, was the third member of the Wright Brother’s team seldom mentioned in history books. Though Katharine’s role in the first flight at Kitty Hawk is subject to rumor and speculation, we do know she was dedicated to the success of her brothers and their flying machine. Katharine also represents a sort of silent enthusiasm from women in society but we will also be talking about women alive during Katharine’s time that threw convention to the wind and embraced this new technology and the freedom it offered. Michelle Epps is the Education Director at the International Women’s Air & Space Museum.	
3:45PM – 4:30PM	M Black Eyed Keys	Indoor Stage
	<i>Artists: Black Eyed Keys</i> Psychedelic Noise Rock	
4:00PM – 4:45PM	M Humachine	Outdoor Stage
	<i>Artists: Humachine</i> Electronic	
4:00PM – 5:00PM	T Aeronautics at the Dawn of the Space Age	Warehouse 32 Stage
	<i>Speakers: Tom Benson</i> From the late 1910’s to the late 1960’s, we have witnessed an evolution in flying machines from the wood, wire, and cloth of the Wright Brothers, to the rocket-powered, bullet-shaped supersonic aircraft of Chuck Yeager, and on to the gas turbine-powered airliners which daily carry hundreds of paying passengers across the oceans. Several technology breakthroughs in aeronautics have made all of this possible. This talk will examine those breakthroughs, the science and engineering behind the technology, and the individuals involved in the discovery. The talk will be presented by Tom Benson, an aeronautical engineer in the Research Directorate at the NASA Glenn Research Center. Benson has been at NASA Glenn for 35 years, working in high speed computational fluid dynamics for propulsion systems and in many educational outreach activities at the center.	
4:45PM – 5:30PM	M Hawkeye	Indoor Stage
	<i>Artists: Hawkeye</i> Rock/Dance/Electronica	
5:00PM – 5:30PM	M Contamination Diet	The Wandering Cave
	<i>Artists: Contamination Diet</i>	
5:00PM – 5:45PM	M Leah Lou & The 2 Left Shoes	Outdoor Stage
	<i>Artists: Leah Lou & The 2 Left Shoes</i> Indie/Pop/Folk/Fun	
5:00PM – 6:00PM	O Apollo Song Cycle	Warehouse 32 Stage
	This song cycle with lyrics, created from Apollo 11 transcripts, explores arguably the greatest journey ever taken by man. Using text directly from the mission transcripts, this piece shows the human side of space travel. Written and performed by Rob McGinness, a student at the Oberlin Conservatory of Music, accompanied on the piano by Casey Robards.	
5:30PM – 6:00PM	M Shrive	The Wandering Cave
	<i>Artists: Shrive</i>	
5:45PM – 6:30PM	M Tree No Leaves	Indoor Stage

Artists: Tree No Leaves
Experimental/Ambient/Psychedelic/Electronic/Rock

6:00PM – 7:00PM **M Forest Management** The Wandering Cave
Artists: Forest Management

6:00PM – 7:00PM **M UZiZi** Outdoor Stage
Artists: UZiZi
Alternative/Sacred Harp (Shape-Note)/Rock/World Beat

6:00PM – 7:00PM **P Go Roadshow** Squonk Go Roadshow Stage
Artists: Squonk Opera
GO Roadshow is “a musical street spectacle on wheels”. This show-making machine is a 34-foot long monster truck retrofitted with truck-horn calliope, a wall made of rotors and a spinning grand piano that is played while it wheels around! Each show starts with a shameless parade of peacock trumpets, spinning drums, accordion, sousaphone, and glockenspiel.
GO is a music and art-mobile – a rolling ruckus that opens up like a mechanical blossom to make the street a vibrant place where people can share a community of the imagination. In GO, Squonk draws from the great American history of traveling circuses, Shriner and holiday parades, medicine shows, and used car lot events that vitalized the heartland of this country.

6:00PM – 7:00PM **T Thirty Years of Flight: The Space Shuttle** Warehouse 32 Stage
Speakers: Matt Melis
NASA’s Space Shuttle, heralded as the world’s most complicated machine, completed 133 successful missions over it’s 30 year history. NASA’s Matt Melis provides a brief history and a detailed look into the inner workings and operation of the Space Shuttle and the hundreds of people who made them fly. Highlights from some the of the Shuttle missions will be shown.
Melis has worked at the NASA Glenn Research Center for 29 years as an aerospace engineer on NASA’s aeronautics, Space Station, and Space Shuttle Programs. He graduated from Michigan State University with a bachelors in civil engineering and a masters in applied mechanics.

6:45PM – 7:30PM **M Gap Dream** Indoor Stage
Artists: Gap Dream
Psychedelic Surf Pop

7:00PM – 8:00PM **D Takes** Warehouse 32
Artists: Nichole Canuso Dance Company
A genre bending exploration of dance installation and cinema conceived by choreographer Nichole Canuso and multi-media director Lars Jan. A sensual melding of live bodies and film, TAKES manifests, refracts and spatially unfolds the forgotten moments of a relationship in real time through a panoramic marriage of live choreography and film. Canuso performs alongside Beau Hancock in this panoramic adventure for the senses.
Separate from the performances, the audience is free to wander and shift perspective during the performance as well as during gallery hours. They are invited into the gallery to explore the performance space and interact with the exhibit, creating their own dance within the installation. At scheduled performance times, the two performers enter and the live event unfolds.

7:00PM – 8:00PM **M KBD Sonic Cooperative** The Wandering Cave
Artists: KBD(uo)

7:00PM – 8:00PM	T People and Robots Together in Space Flight	Warehouse 32 Stage
	<i>Speakers: Brian Palaszewski</i>	
	From the Moon landing to the Mars Rover, people and robots have both been vital to exploring the outer reaches. Brian Palaszewski covers the past accomplishments and the hopeful future of both people and robots in our exploration of space. He also gives the latest scoop on the Mars Science Laboratory and the Curiosity Rover, currently conducting extensive observations on the surface of Mars.	
	Palaszewski has worked at the NASA Glenn Research Center at Lewis Field since 1989 and is currently directing research on high performance propellants and atmospheric entry and in-situ resource utilization (ISRU). Recently, he led work related to human Mars entry, descent, and landing (EDL) where supersonic retro-propulsion (rocket deceleration) is planned for the final descent to the planet's surface. He is also investigating outer planet atmospheres and the challenges and benefits of mining them for future ambitious space missions. For six years, he led many studies of advanced space systems for orbital and interplanetary travel at the Jet Propulsion Laboratory, Pasadena.	
7:15PM – 8:00PM	M Zack Orr	Outdoor Stage
	<i>Artists: Zack Orr</i>	
	Folk Rock/Indie	
7:45PM – 8:15PM	M Radio People	Indoor Stage
	<i>Artists: Radio People</i>	
	Electronic/Ambient/Noise	
8:00PM – 8:30PM	M Fascist Insect	The Wandering Cave
	<i>Artists: Fascist Insect</i>	
8:00PM – 9:00PM	P Drew Michael Opens for Jamie Kilstein	Comedy Stage
	Drew Michael @drewmcomedy is a dark cloud bubbling with sharp cutting comedy out of Chicago. Jamie Kilstein @jamiakilstein is a comedic warrior who's appeared on Showtime, CONAN and is host of the popular political show Citizen Radio. He's an active advocate for Occupy Wall Street, veganism and being a righteous stand up comedian.	
8:00PM – 9:00PM	T Damage Assessment and the Shuttle Program	Warehouse 32 Stage
	<i>Speakers: Dr. Kelly Carney</i>	
	For the last four years of the Space Shuttle Program, Dr. Kelly Carney was a member of the Damage Assessment Team at Mission Control in Houston. After the Columbia accident, the Damage Assessment Team carefully examined hundreds of images evaluating damages to tiles, blankets and the leading edge of the Shuttle Orbiter and decided whether or not to perform spacewalk repairs. Dr. Carney will present a brief history of the most expansive damages, one of which required an improvised repair.	
	Carney started at NASA Glenn Research Center in 1982, working on the Atlas/Centaur, Shuttle/Centaur, and Titan/Centaur rockets and the Space Station Solar Arrays. After completing his PhD at Case, he began research into impact and the safety of jet engines. When the Columbia accident occurred, he assisted in the accident investigation and effort to return the Space Shuttle to flight. After the Space Shuttle began flying again, Dr. Carney was then made responsible for all structural analysis on the Space Shuttle Orbiter.

9:00PM – 10:00PM **P Go Roadshow** Squonk Go Roadshow Stage

Artists: Squonk Opera

GO Roadshow is "a musical street spectacle on wheels". This show-making machine is a 34-foot long monster truck retrofitted with truck-horn calliope, a wall made of rotors and a spinning grand piano that is played while it wheels around! Each show starts with a shameless parade of peacock trumpets, spinning drums, accordion, sousaphone, and glockenspiel.

GO is a music and art-mobile – a rolling ruckus that opens up like a mechanical blossom to make the street a vibrant place where people can share a community of the imagination. Night shows include video projected on a rotor screen made of movement itself, and on a blimp that has a mouth that opens in a call to celebration. In GO, Squonk draws from the great American history of traveling circuses, Shriner and holiday parades, medicine shows, and used car lot events that vitalized the heartland of this country.

Folk Rock

9:30PM – 10:15PM **M Helado Negro** Indoor Stage

Artists: Helado Negro

Electro-Folk

10:00PM – 11:00PM **D Takes** Warehouse 32

Artists: Nichole Canuso Dance Company

A genre bending exploration of dance installation and cinema conceived by choreographer Nichole Canuso and multi-media director Lars Jan. A sensual melding of live bodies and film, TAKES manifests, refracts and spatially unfolds the forgotten moments of a relationship in real time through a panoramic marriage of live choreography and film. Canuso performs alongside Beau Hancock in this panoramic adventure for the senses.

Separate from the performances, the audience is free to wander and shift perspective during the performance as well as during gallery hours. They are invited into the gallery to explore the performance space and interact with the exhibit, creating their own dance within the installation. At scheduled performance times, the two performers enter and the live event unfolds.

10:00PM – 11:00PM	F The Drowning	Warehouse 32 Stage
	<i>Artists: Kasumi</i>	
	From the producers of Shockwaves, the breakthrough feature film premiering Spring 2013...	
	<p>“The Drowning,” the award-winning 3 screen experimental film, explores the impressions running through a man’s mind in the moments before his death: the sensation of time slowing down, of heightened bodily perceptions, and the simultaneous unreeling of an internal cinema of images that create an unconscious narrative of personal history and emotion.</p>

SEPTEMBER 16 • SUNDAY

- 12:00PM – 6:00PM **A Arduino Workshop - Makers Alliance** Warehouse 32
Join the Makers Alliance, Cleveland's original hacker space, for some guerrilla engineering! We will be offering Arduino workshops in embedded electronics throughout the weekend. Make lights blink, alarms sound, sequence MIDI notes, and gain access to badge-secured area with the Makers Alliance at Ingenuity Festival! Seats and material supplies are limited, so sign up for the class sooner than later! See you there!
Check the Makers Alliance wiki for the latest information: <http://wiki.makersalliance.org/display/MAB/Ingenuity+Festival>
-
- 12:00PM – 6:00PM **A Fab Labs at Ingenuity's Make Space** Warehouse 32
Cleveland and the North Coast are hotbeds of digital fabrication. They are home to MIT-inspired "Fab Labs" (fabrication laboratories) where users can make almost anything.
At IngenuityFest, the United States Fab Lab Network (USFLN) will sponsor several displays and demonstrations. The biggest will be MC2 STEM's mobile Fab Lab—a 32' NASCAR trailer decorated in Cleveland and equipped with the latest computer hardware and software for cutting, adding, shaping, 3D printing, and electronics. Around it will be a perimeter of tables for small businesses that got their starts in a Fab Lab. Several machines will be in the center ring to make personalized artifacts on the spot under supervision of students and other skilled Fab users. The USFLN space will be staffed throughout IngenuityFest. Come see what's "making." Pick up information about local Labs. Talk with users of all ages. Try making something personal.

12:00PM – 6:00PM **A Feed Creativity created by the team at Faber-Castell** Warehouse 32

The “Feed Creativity” space invites creative minds of all ages to participate in arts and crafts. This space is dedicated to adult and children’s hands-on art and crafts. Children can work with crafts and activities from Creativity for Kids and Faber-Castell’s Premium Children’s Art Products while adults can work with Design Memory Craft’s Mix & Match products at our Craft Bar, or sample Faber-Castell’s famous professional fine art line established in 1761 in Germany. Visit the space to feed your creativity with inspiration from Cleveland landmarks such as the Westside Market and Burke Lake Front Airport.

Be sure to note the scheduled, timed events so you can experience various make-it-take-it activities. Faber-Castell is a global company with offices around the world, with US headquarters located in Cleveland, Ohio. We are world renown for creative products and dedicated to bringing you creative products based on our founding principles of: Best of Class Quality, Innovation and social responsibility.

Learn more at www.FaberCastell.com and we look forward to seeing you at Feed Creativity.

12:00PM – 6:00PM **A Ingenuity's Make Space** Warehouse 32

Learn, create, and be inspired by this assembly of creative Makers. Watch a robot create art or fashion some of your own. Learn about everything from 3D printers to laser cutters to soldering irons. Just what is a Maker? Come and be surprised. You may already be one.

12:00PM – 2:00PM **A The Art and Science of Chemistry** Warehouse 32 Stage

Speakers: Drs. Jerry Mundell and Anne O'Connor

Mundell and O'Connor both entertain and engage the audience in the principles of chemical and physical properties, minuteness of atoms, properties of gases, and sublimation of solids through entertaining demonstrations that include colorful chemical reactions, volumetric flask bubble factories, collapsing cans under atmospheric pressure, liquid nitrogen, dry ice, and soda pop geysers. The demonstrations end with delicious liquid nitrogen strawberry ice cream served to an appreciative audience. Hands-on activities are available for the younger children that include making bouncing balls, colorful fish and butterflies, glitter slime, decorative stained glass glue, and writing invisible messages. The activities introduce children to polymerization reactions, acid-base indicators, and paper chromatography.
